

Victim Evidence Evaluation

EMF Test Instructions

| | |
|---|--|
| <p>Magnet Stick Test - Lightly press a neodymium refrigerator magnet to different parts of the forehead. If it sticks anywhere, the result is positive. The victim has been poisoned with super-paramagnetic material.</p> | <p>Magnet Survey</p> |
| <p>Brain Transmitter Test - Turn on power meter, press RF button (mW/m²), hold meter to forehead, top, sides, then back of head. If the meter beeps, the test is positive. Record the mW/m² value. This measures the degree of nanotech infiltration in the person's head. Higher numbers indicate more intense transmission from the victim. Positive results occur when near broadcast towers that affect victims.</p> <p>Brain Receiver Test - While doing Brain Transmitter Test, cover the person's head with shielding fabric. If the signal stops, the signal driving the Brain Transmitter test is external to the person in frequency range outside the power meter.</p> | <p>Forehead Signal</p>  |
| <p>Victim Termination Signal Test. Expose suspected victim to 1 minute of 18 GHz signal from signal generator. If present exposure will cause lipid nanoparticles with Marburg toxin to rupture and release Marburg/Ebola/Hemorrhagic disease payload. Victim will become ill within 21 days. The Calendar Disclosure reports death in 9 out of 10 cases.</p> | <p>Termination Test</p>  |
| <p>BLE Find Spy - Android Test Build - Under development</p> <p>This application is a listen-only detection system to prevent evasion software.</p> <ol style="list-style-type: none">1. Scans the environment to build an inventory of all BLE signals2. Cover Suspect with shield & Scan again for attenuated and dropout signals3. Remove shield and confirm all returned signals4. Report, whack-a-mole for confirmed spy devices | <p>BLE Find Spy</p>  |

Bluetooth Signal Shield Removal Test

[Download Android Development Build Under Development](#)

This test requires a small piece of shield fabric and a bluetooth MAC address detector application.

1. Secure all bluetooth devices a reasonable distance from the test area.
2. Cover Subject with Shield Fabric. Shielding blocks the subject from receiving external magnetic fields from LAN, 5G and other sources.
3. Wait 3 minutes to power-down devices in subject. Internal MAC devices use "stray" fields, this blocks the power supply to these devices so they stop transmitting. The shield also blocks emissions. This combination removes any nano-tech devices from being detected.
4. Start a bluetooth detector device. Clear all lists. Turn on Bluetooth Address sensor and let Bluetooth detector device initialize for 3 minutes to detect local Mac Addresses. Save list if application permits. At this point the detector device is aware of all devices except those from those coming from the subject.
5. Remove Shield fabric from the subject. This restores EMF signal to the subject and stops blocking signals from the subject.
6. Watch list for 3 minutes for appearance of new Bluetooth MAC addresses. These addresses will be "unknown" and will not be associated with any licensed application. Signals from these devices are delayed because they need to absorb environmental EMF to gain power to power up. Multiply vaccinated individuals may have multiple MAC addresses.
7. Record any MAC addresses that appeared after the shield was removed. These are coming from the subject

The new world order EXECUTION TEMPLATE

Phase 1: Simulate a threat and create fear. (December 2019-March 2020)

- Mount a pandemic in China.
- Kill tens of thousands of elderly people.
- Increase the number of cases and deaths.
- Position vaccination as the only solution from the beginning.
- Focus all attention on Covid-19.

RESULT, (ALMOST) GENERAL PANIC

Phase 2: Sow the tares and division. (March 2020-December 2020)

- Impose multiple unnecessary, liberticidal and unconstitutional coercive measures.
- Paralyze trade and the economy.
- Observe the submission of a majority and the resistance of a rebellious minority.
- Stigmatize the rebels and create a horizontal division.
- Censoring dissident leaders.
- Punish disobedience.
- Generalize PCR tests.
- Create confusion between cases, infected, sick, hospitalized and dead.
- Disqualify all effective treatments.
- Hope for a rescue vaccine.

RESULT, (ALMOST) GENERAL PANIC.

Phase 3: Bring a treacherous and deadly solution. (December 2020-June 2021)

- Offer a free vaccine for everyone.
- Promise protection and return to normality.
- Establish a herd immunization target.
- Simulate a partial recovery of the economy.
- Hide statistics of side effects and deaths from injections.
- Passing off the side effects of the injections as "natural" effects of the virus and the disease.
- Recover the notion of a variant as a natural mutation of the virus.
- Justify the maintenance of coercive measures by not applying the herd immunity threshold.
- Punish health professionals for the illegal exercise of care and healing. -

RESULT, DOUBTS AND FEELINGS OF BETRAYAL AMONG THE VAXX, DISCOURAGEMENT AMONG OPPONENTS.

Phase 4: Install Apartheid and the QR code. (June 2021-October 2021)

- Voluntarily plan for shortages.
- Impose the vaccination pass (QR code) to reward the vaccinated, punish the resistant.
- Create an Apartheid of the privileged against the others.
- Take away the right to work or study from non-vaxx.
- Withdraw basic services to the non-vaxx.
- Impose PCR payment tests on non-vaxx.

RESULT, FIRST STAGE OF DIGITAL CONTROL, IMPOVERTISHMENT OF OPPONENTS

Phase 5: Establish chaos and Martial law. (November 2021-March 2022)

- Exploit the shortage of goods and food.
- Cause the paralysis of the real economy and the closure of factories and shops.
- Let unemployment explode.
- Apply a third dose to the vaxx (boosters).
- Take up the murder of the living old men.
- Impose compulsory vaccination for all.
- Amplify the myth of variants, the efficacy of the vaccine and the immunity of the herd.
- Demonize the anti-vaxx and hold them responsible for the dead.
- Arrest opposition leaders.
- Impose digital identity on everyone (QR code): Birth certificate, identity document, passport, driving license, health insurance card ...
- Establish martial law to defeat the opposition.

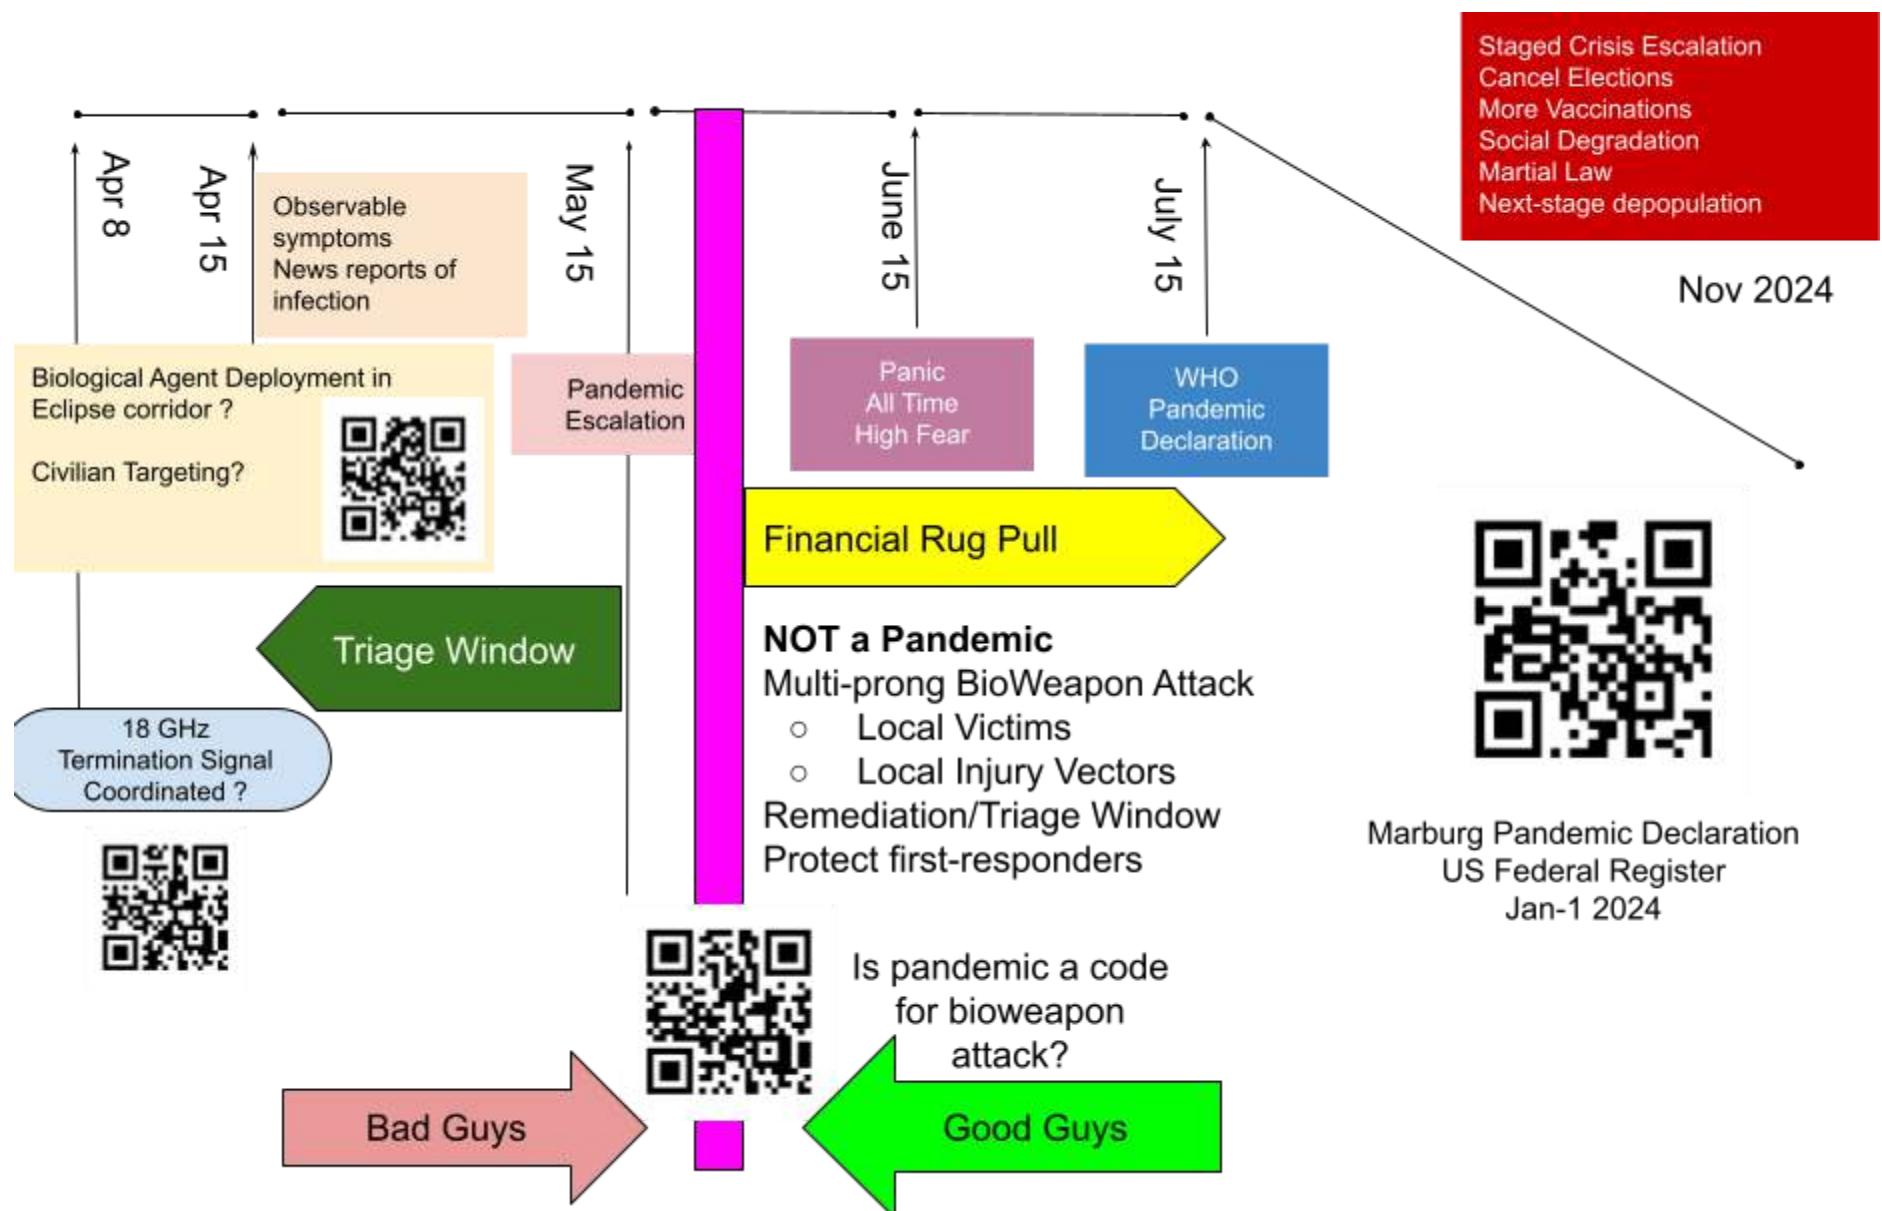

RESULT, SECOND STAGE OF DIGITAL CONTROL, IMPRISONMENT OR REMOVAL OF OPPONENTS.

Phase 6: Cancel the debts and dematerialize the money. (March 2022-September 2022)

- Trigger the economic, financial and stock market collapse, the bankruptcy of the banks.
- To rescue the losses of the banks in the accounts of their clients.
- Activate the «Great Reset».
- Dematerialize money.
- Cancel debts, loans and credit.
- Impose the digital portfolio. (Digital Wallet)
- Seize properties and land.
- Ban all global medicines.
- Confirm the obligation to vaccinate semi-annually or annually.
- Impose food rationing and a diet based on the Codex Alimentarius.
- Extend the measures to emerging countries.

RESULT, THIRD STAGE OF DIGITAL CONTROL, EXTENSION OF THE N.O.M. TO THE WHOLE PLANET.

Disease-X War Game / Phase 5-6 COVID-2.0

|--|--|---|

Crime Report

This document is a guide to enable reporting state and federal crimes to the local sheriff as a criminal complaint. It seeks to overcome the tendency of law enforcement to avoid politically sensitive investigations and to pass responsibility to captured political and judicial organizations.

[Crime Report](#)
[PDF](#)

Compliance Statement

This crime report is submitted pursuant and in compliance with: Duty to report a crime - liability for disclosure [CRS 18-8-115](#)

It is the duty of every corporation or person who has reasonable grounds to believe that a crime has been committed to report promptly the suspected crime to law enforcement authorities. Notwithstanding any other provision of the law to the contrary, a corporation or person may disclose information concerning a suspected crime to other persons or corporations for the purpose of giving notice of the possibility that other such criminal conduct may be attempted which may affect the persons or corporations notified. When acting in good faith, such corporation or person shall be immune from any civil liability for such reporting or disclosure. This duty shall exist notwithstanding any other provision of the law to the contrary; except that this section shall not require disclosure of any communication privileged by law.

Strategy

1. Establish the investigator as a personal stakeholder (victim) in the crime(s);
2. Empower investigator to use simple devices to validate and corroborate evidence with a victim identification kit:
 - a. **Magnet** to confirm paramagnetic poisoning
 - b. **RF power Meter** to confirm integration of RF transmission into victim;
 - c. **RF shielding** to confirm integration of RF reception into victim;
3. Guide investigator to realize broad crime scope of the crime by testing peers in law enforcement;
4. Guide investigator to realize existential risk to life, family and community to nanotechnology deployed by injection, food, and water per Callender Disclosure injected as "COVID Vaccines".
5. Trigger triage & remediation in time to protect critical local infrastructure with initial focus on first responders, scaling to protect community members;
6. Make it clear to first responders that so-called pandemics are premeditated and staged bioweapon attacks to enable effective and timely response to protect life.

Exhibits & Evidence Tests

Every person tested thus far in Larimer County has tested positive to the magnetic victim test by having a magnet stick to their forehead or chest.

Contaminants are presumed to be from food, injections and possibly aerosol sources. The test illustrates the presence of unnatural electromagnetism. It does not indicate a source.

[Victim Evaluation Data Collection Form](#). Scan to access online form for a basic victim survey.

[Scan to Access Form](#)

Victim Identification Kit

- E-1-a: N-40 Neodymium Magnet
- E-1-b: Mirror or Cell phone
- E-1-c: EMF Signal Meter
- E-1-d: Bluetooth Address Survey device
- E-1-e: Peace officer(s) with magnet(s) sticking to forehead

Evidence of Magnetic poisoning of humans:

E-1-a adheres E-1-e: Human tissue from any law enforcement official, firefighter, health care worker or student now present.

Now place **E-1-a (magnet)**, the magnet, upon the forehead of **E-1-e (peace officer)**. If it sticks this is evidence of magnetism that subject E-1-e has consumed a sufficient quantity of poison material to cause the person to exhibit anomalous magnetic phenomena. The form and route(s) of administration are unknown. This evidence is blatant.

This person is a poisoning victim. The person's body contains a sufficient amount of super paramagnetic contaminant to elevate harm from exposure to electromagnetic signals and exhibit termination response to lower amplitude broadcast 18 GHz signals.

Sticking is evidence that the victim was poisoned by consumption of food items, **E-2-a, E-2-b, and E-2-c**, by intentional introduction of contaminants, upstream in the food-supply chain, or as an injected medication.

These substances are intentionally manufactured and distributed by various corporations normally described as genetic modification technology. See statutory references for information on crimes.

[This patents.google.com search returns over 100,000 patents on gene modification technology.](https://www.google.com/search?q=mRNA+Patent+Search)

[mRNA Patent Search](https://www.google.com/search?q=mRNA+Patent+Search)

Forehead Signal Transmission Test

| | | |
|--|--|--|
|  A photograph showing a person's forehead being held by a hand. The hand is holding a handheld RF meter, which is displaying a value of '0549'. The background is a wooden wall. |  A standard black and white QR code is located in the upper right corner of the table cell. It is intended to be scanned by a mobile device to provide quick access to the test instructions. | <p>Thus test Indicates subject is transmitting RF energy from the head.</p> <p>This test is location specific because it relies on 5G or other Radio Frequency Broadcast facility as a source of external power.</p> <p>When the meter in RF mode is held to the forehead it beeps indicating an RF signal is present and a value is displayed. Pulling away stops beeping and the signal goes to 0.</p> |
|--|--|--|

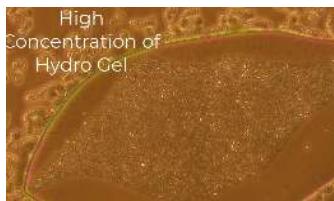

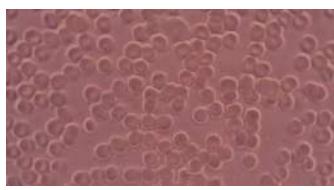

Hematological Evidence

Exhibits relating to evidence of poisoning & infection with chimeric organisms:

- E-3-a: Microscope with video camera

- [Advanced EMF Meter GQ EMF-390 3-in-1 EMF ELF RF Meter, 5G Cell Tower Smart Meter WiFi Signal Detector RF up to 10GHz with Data Logger and 2.5Ghz Spectrum Analyzer](#) E-3-b: Blood sample from peace officer or firefighter
- E-3-c: Nematocyst parasite showing consumption of erythrocytes (Red Blood Cells)
- E-3-d: Parasite manufacturing ribbon-like artifact (antenna in blood)
- E-3-e: Radiation injured erythrocytes near ribbon-like artifact

Samples collected from community members including firefighters & healthcare workers.

| Larimer County Resident Blood Artifacts | Images | Video |
|--|--|---|
| Healthcare worker parasitic artifact with live recording of erythrocyte parasitization |  |  |
| Resident with parasitic artifact manufacturing a antenna-ribbon artifact |  |  |
| Resident with row-column structured particulate indicating unnatural materials |  |  |
| Normal Blood Sample - for comparison (control sample) Pre 2020 |  |  |

Other anomalous evidence of harm to humans

This evidence is easily observable with a microscope to view blood.

1. Appearance of anomalous blood artifacts in humans since 2020
 - a. Ribbon like structures in blood;
 - b. Parasitic organisms that consume red blood cells;
 - c. Organisms use blood residue to manufacture ribbon-like artifacts;
 - d. Erythrocytes near ribbons present as radiation damaged, rouleaux & agglutination.
2. Pervasive increase in cardiovascular conditions since 2021
 - a. Sudden death of athletes;
 - b. Myocarditis;
 - c. Stroke.
3. Pervasive increase in autoimmune diseases
 - a. Acquired Immune Deficiency Syndrome in most vaccinated individuals 2-3 years post vaccination;
 - b. Turbo Cancers in formerly healthy individuals
4. Incidence of turbo-cancer in vaccinated individuals
5. Occurrence in unnatural plastic-like artifacts from vaccinated cadavers;
6. Unnatural Radio Frequency emissions from humans;
7. Unprecedented workforce disability - Edward Dowd - Cause Unknown.

A survey of peace officers will likely show that the magnet sticks to the heads of nearly all Larimer County Deputies, Sheriff, firefighters, first responders, healthcare providers, and county officials including the District Attorney and all Judges, and Clerks.

One purpose of this complaint is to alert officials to the fact that they have been poisoned. They are at elevated risk of illness and injury from electromagnetic radiation exposure.

They should implement remediation and avoidance or shielding from electromagnetic radiation.

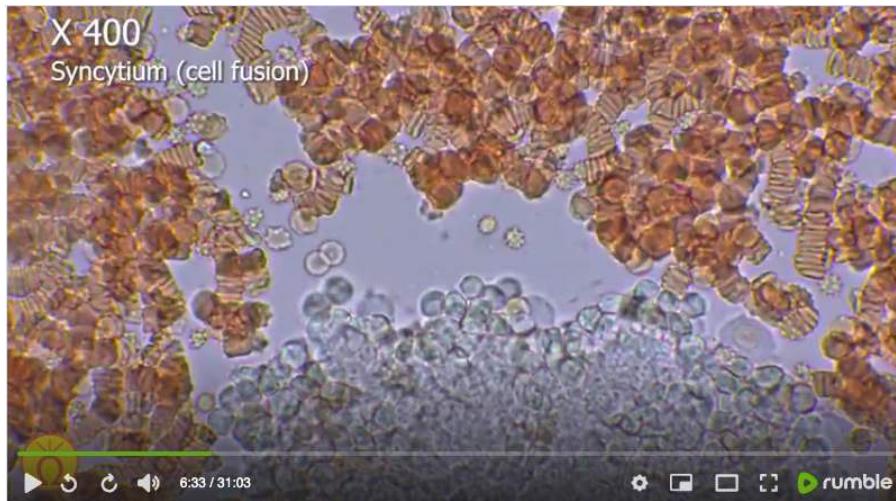

Third Party Reproduction

- [Next Dose 3 - 3rd Party corroborating microscopy of EMF/Blood weaponization](#)

This video shows duplicate most of observations and assertions above:

- Live formation of an artifact from white blood cells
- Blood sample developing a Bluetooth MAC address when vaccinated blood mixed with unvaccinated
- Much more

<https://qrs.ly/gdfhfk2>

Magnetic contamination in food

Magnetic contamination in meat from local sources, particularly poultry, pork and chicken, were easily observed until January 8, 2024. At this time, all conventionally raised chicken, beef and pork has been removed from the shelves at local stores. No paramagnetic samples were available in Laporte, King Soopers, or North Fort Collins Walmart.

Only organic products remain in stock.

Prior to the check on January 8, it was easy to find contaminated meat. Initial testing was conducted during about November of 2023 at King Soopers, and Overland foods in Laporte, Colorado.

E-1-a stick to E-2-a, E-2-b, E-2-c: Meat samples obtained from Walmart, 4500 Weitzel St, Timnath, CO 80547. Note that the magnet are three magnetic samples: beef, chicken and pork, and a control sample from another store which did not test magnetic.

Sticking the magnet, Exhibit-2, to Exhibit-1 clearly evidences the food products obtained from King Soopers contain contaminants that change the electromagnetic properties of the meats. Approximately 30% of meat products contain enough contaminants to cause magnets to stick.

The meat products are contaminated with unnatural substances causing them to be magnetically active.

EMF Poison Delivery Samples

- E-1-a: N-40 Neodymium Magnet
- E-2-a: Beef from Walmart

- E-2-b: Chicken from Walmart
- E-2-c: Pork from Walmart
- E-2-d: Non-magnetic Beef (control sample)
- E-2-e: Non-magnetic Chicken (control sample)
- E-2-f: Non-magnetic Pork (control sample)

At the time of this writing, 1-10-2024, - Walmart and King Soopers have removed all conventionally raised (magnetic) meats from their shelves. Only organic meats, or "naturally" raised meats are available. I was unable to purchase magnetic samples.

|   |   |

Were you murdered?

Do you feel uneasy about exposing yourself to the **victim termination signal**?

3 one minute signals @ 18 GHz.

If yes, then you feel it is probable that not only was a crime committed, but that you are also a victim.

You may struggle to convince yourself that you were not murdered.

Evidence item, E-4-a the **victim termination signal generator**, that enables you to test to see for yourself if you were murdered - **or evidence that you weren't**.

| | |
|--|---|
| <p>Victim Termination Signal Test. Expose suspected victims to 1 minute of 18 GHz signal from signal generator.</p> <p>If Marburg toxins are present, exposure will cause lipid nanoparticles to rupture releasing disease payload as Marburg/Ebola/Hemorrhagic agents.</p> <p>Victim will become ill within 21 days. The Calendar Disclosure reports death in 9 out of 10 cases.</p> | <p>Termination Test</p>  |
| <p>If you are afraid to expose yourself to the 18 GHz signal, then you have reasonable articulable suspicion of a crime.</p> <p>You also have evidence that you are also a victim. Please review Triage and Remediation segments of this document.</p> <ul style="list-style-type: none">• Triage - proposes a method to indefinitely suspend the threat;• Remediation - proposes a method to neutralize the threat. <p>Threat is referenced in the Callender disclosure.</p> |  <p>Todd Callendar Marburg Rollout Video</p> |

A *Victim Termination Signal Kit* is offered as evidence. The kit can be used either to remediate, slow-release alleged Marburg toxins, or to quick-release, per Callender disclosure.

If you were vaccinated, and magnet sticks to you, please be advised that the evidence suggests you may be a homicide victim pending termination upon broadcast of the 18 GHz signal. The Callender disclosure assets your life is in danger.

Please consider remediation of yourself, then your peers, and then investigate who did this to you, and why.

Please undertake the steps necessary to convince yourself that you were not murdered. If this is not possible, please consider remediating your risk of termination when you are exposed to the 18 GHz signal from the 5G network.

Reasonable Articulable Suspicion of a crime exists and further investigation is warranted.

Triage

1. A process for sorting injured people into groups based on their need for or likely benefit from immediate medical treatment. Triage is used in hospital emergency rooms, on battlefields, and at disaster sites when limited medical resources must be allocated.
2. A system used to allocate a scarce commodity, such as food, only to those capable of deriving the greatest benefit from it.
3. A process in which things are ranked in terms of importance or priority.

First Objective - Buy Time

The 4G system, and 5G LTe infrastructure operates below 10 GHz and appears safe. This means that most active cell phone infrastructure does not pose an immediate threat.

High frequency infrastructure, above 10 GHz, is primarily deployed in dense population areas, Fort Collins, Loveland and Greeley, based on coverage maps from ATT & Verizon. Usage is unknown, but the majority of the communications infrastructure could remain operable.

Depowering the high frequency transmitters would negate the ability for these systems to broadcast an 18 GHz signal.

This neutralizes harm potential until the threat can be investigated and the vulnerability neutralized.

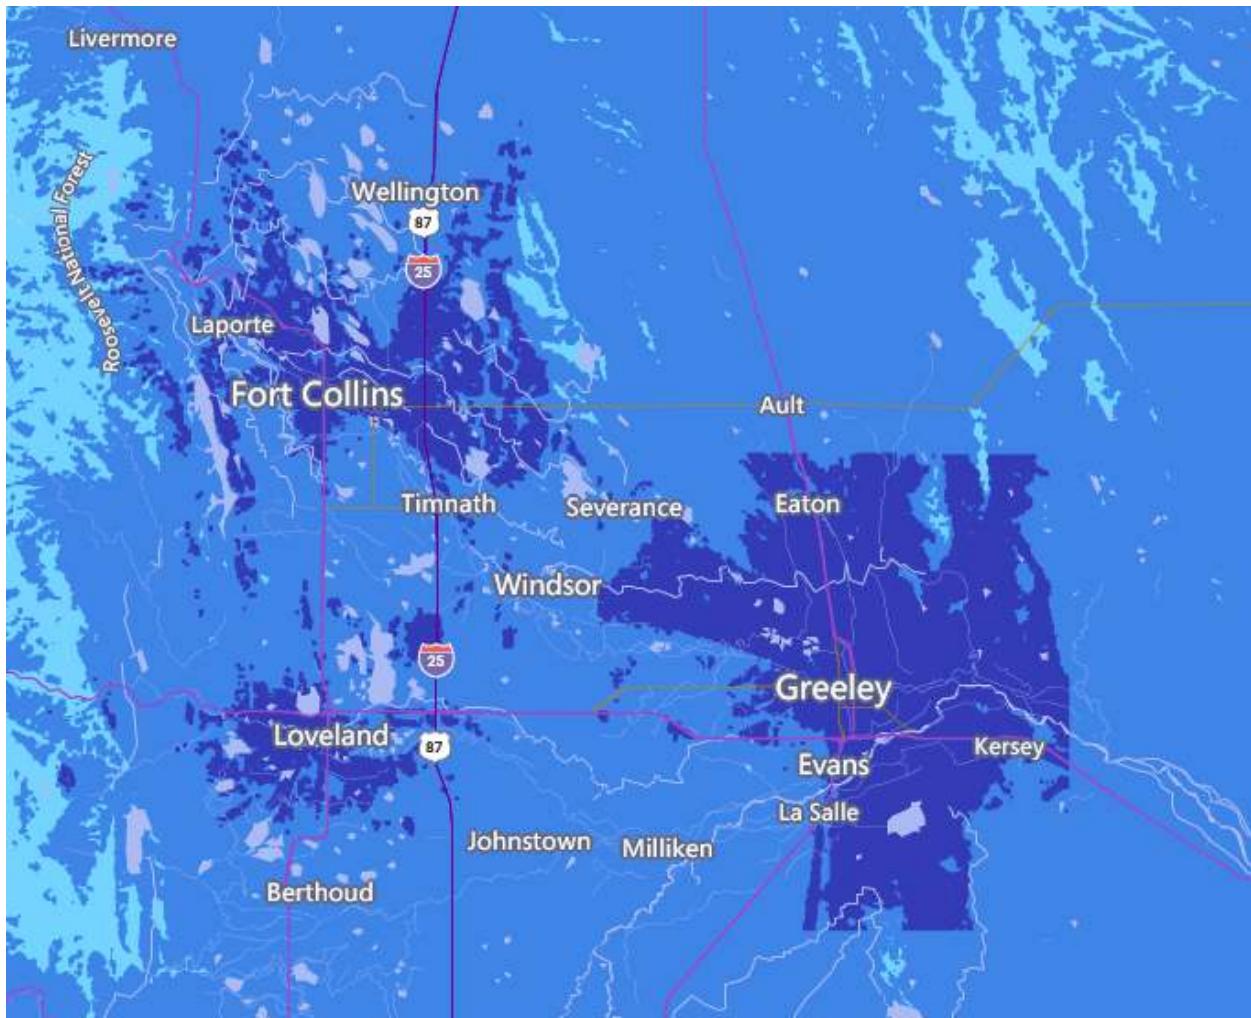

EMF Attack Risk Map

This suspension would also enable communication providers to provide safety data for humans to be exposed to high frequency radiation.

These transmitters should be considered a component of a mass destruction weapons system, until proven otherwise.

Because their continued operation is a risk to life and limb to police, first responders, and the general public, refusal of the operators to shut these systems down asserts the operators intend to harm the public.

Destructive self-defensive actions, by the police, against these facilities may be warranted.

Second Triage Objective - Protect First Responders

Recommended Triage Priority:

1. Vaccinated first responders & police
2. Unvaccinated first responders & police
3. Vaccinated non-responders
4. Unvaccinated non-responders

When the termination signal is broadcast, all of the vaccinated individuals will become ill. Loss of vaccinated first responders will decimate social infrastructure and ability to have functional support for the general population.

The Marburg NanoLipid packets represent the immediate threat to life. The protocol is designed to neutralize these 18 GHz exposure over a large amount of time.

This is an uncertain process because:

1. The natural half-life of the liposome bearing particulate is unknown;
2. It is unknown whether the source of packets is endogenous or exogenous;
3. Apparent risk varies by the number of injections each person received 1-4, as boosters, etc.
4. Autoimmune competence is highly variable
5. Anyone who has ever received a COVID vaccine is at mortal risk
6. Individuals who have never received a COVID vaccine are at less but as yet unknown risk;
7. Degree and effect of superparamagnetic absorption sensitization unknown;
8. Local food stores are a known source of superparamagnetic material - other sources likely;
9. Sufficiency of the protocol is unknown.

Fast forward to Remediation

Issues:

- Ribbon Blood Artifacts (antennas)
- Blood Parasites that manufacture artifacts
- Hydrogel - changes blood viscosity
- Paramagnetic Tissue - absorbs unnatural EMF

Victim Termination Signal Kit

The [Callender Disclosure](#) asserts that exposure of a human victim of poisoned with lipid nanoparticles will experience hemorrhagic fever, Marburg, Ebola within 30 days of exposure to 3 one minute bursts of the activation signal.

Victims may also experience [1P36 gene deletion syndrome](#) which causes severe mental retardation from shrinkage of the prefrontal cortex.

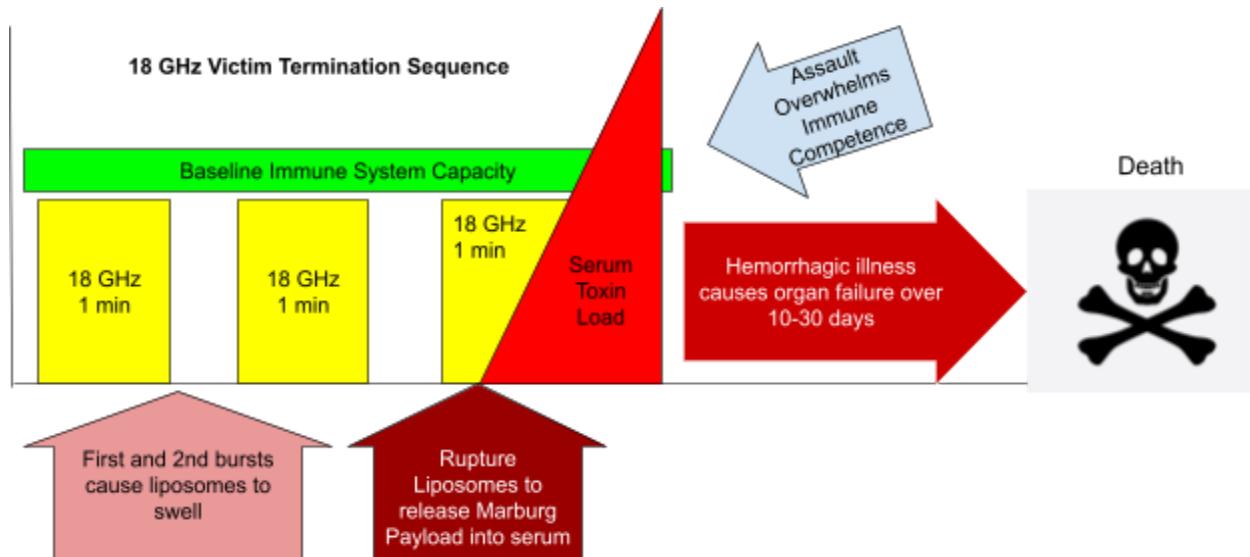

Evidence: Expose vaccinated individuals to signal and wait 30 days. Observe onset of hemorrhagic fever, 1P36 gene deletion and death in 88% of subjects.

E-4-a Victim Termination Signal Kit.

Victim Termination Sequence 3x - 1 minute blast at 18 GHz

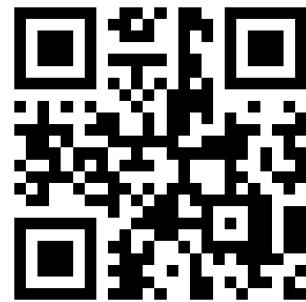

Apparently, the weapon designers intend subject(s) to remain asymptomatic until after the final signal. The final signal is a burst release of the toxin payload. This release eventually overwhelms the immune system toward termination. This model is presumed from the alleged 88% death rate.

This number evidences that the assault is so severe that 90% of victims lack immune competence to survive.

This image illustrates the apparent physiological scenario triggered by the **victim terminal signal**.

Marburg Activation Signal - Exposure of subject to 3 one minute bursts of 18 GHz signal causes lipid nanoparticles to burst and release disease payload resulting in disease and death of 88% of victims, and possibly 1P36 gene deletion syndrome.

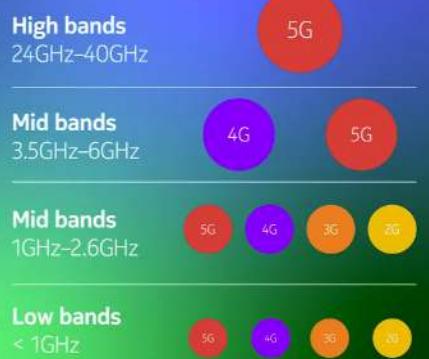

E-3-a: 18 GHz generator with contact leads E-3-a, Generator, Pigtail Harness,

E-3-b: 5G tower image as deployed. High bands are broadcast capable at 18 GHz.

Spectrum determines 5G coverage and speed

Remediation

Magnetism is irrefutable evidence that the person's body contains paramagnetic materials. Presence of these materials makes the body work like an antenna and increases vulnerability to injury from electromagnetic signals, and possible manipulation per external signal sources. See Patents.

The sources of magnetic materials appear to be the result of genetic manipulation and possibly from external sources:

- [Human Cells Made Magnetic with Engineered Protein Crystals](#)
- [WO2016054298A1 - Magnetogenetics](#)
- [EP2873425A1 - Production of magnetic nanoparticles in recombinant host cells](#)
- [US10849974B2 - Compositions and their use for controlling the nervous system in vivo](#)
- [KR20210013014A - Systems and methods for inducing neural activity to control brain signals and gene expression](#)

Vaccinated victims are much more likely to have Marburg Toxins administered via the so-called vaccines per Callender Disclosure.

The more vaccinations the higher the risks. Vaccinated subjects should test for magnetic and hyper-magnetic symptoms.

- Magnetic - Steel items like paper clips and tools may stick to subject
- Hyper-magnetic - non-magnetic items like coins, brass items, may stick to the subject.

- Higher level magnetism indicates radical deviation from normal physiology and likely profound risk to health.

Fig. 13. Photos of two people vaccinated with Moderna (left) and Pfizer (right) vaccines, showing the attraction of metal objects. The rectangle is a brass plate 4 mm thick, i.e. non-magnetic. Similarly, in the first case, there was attraction of non-magnetic metals, e.g. 10 Euro cent coins, which were not attracted by a magnet.

Protocol Strategy

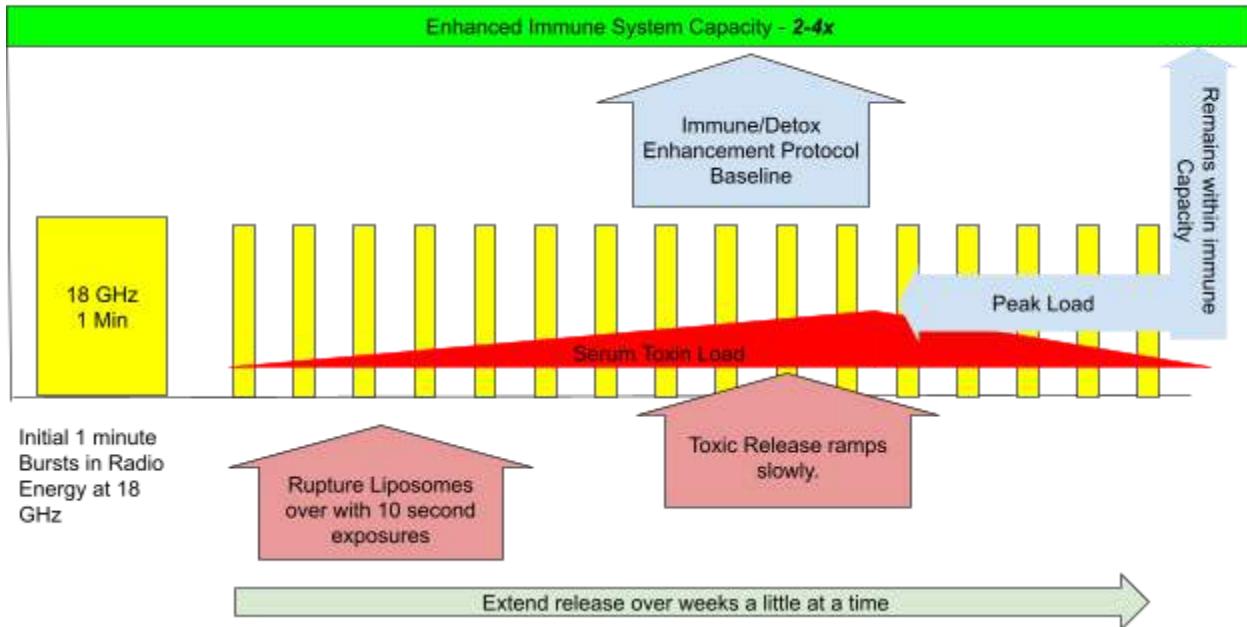

1. Maximize Detoxification
2. Maximize Immune System
3. Disarm Toxins over extended time by "chirping"

Victim Disarm Sequence

Disarming the Marburg or other liposomal toxins uses a sequence of brief exposures over time to gradually release toxins so that the immune and toxin challenge remains within tolerance. The method releases toxins over weeks instead of in one minute.

The immune protocol enhances immune competence by a factor of 2-4x for the duration of the disarm sequence to improve resilience thus survivability. Scan QR code or visit: [Blood Parasite / Electromagnetic Remediation](#) protocol.

Marburg / Liposome Disarm Protocol

Scan QR code to access the applicable protocol.

| <p><u>JabO2 Protocols</u></p> |  |

Victim Options

At the time of this writing there is no evidence that a termination signal has been broadcast.

The final signal triggers liposome rupture to cause a burst release of the toxin payload into the victim's blood.

The Victim Signal Termination Kit evidence kit creates three options:

1. Do nothing - accepting risk of termination from 18 GHz signal from 5G network at any time.
2. Disarm Toxins. Gradual 18 GHz exposure over 1 month in 10 second bursts to slowly release toxins while optimizing immune & detox processes.
3. Activate Toxins with three one minute exposures to 18 GHz signals - deemed very dangerous. This would prove that a vaccinated individual was not a victim.

Ongoing Toxin/Disease Avoidance Strategy

- Detoxify Anomalous Electromagnetic Toxins:
 - Suppress or eliminate parasitic organisms;
 - Reduce circulating antennae artifacts in serum;
- Avoid magnetic food sources:
 - Test meats before purchase with a magnet;
 - On discovery of magnetic food - report it to the store management;
 - Report contaminated foods to Health Inspector;
 - Cause the food suppliers to return contaminated foodstuffs to sources.
- Avoid or neutralize environmental electromagnetic sources:
 - Wear shielding clothing;
 - Test environmental electromagnetic sources for emissions exceeding established safety standards, Exhibit E-1-c, and prosecute offenders broadcasting signals for assault, battery or poisoning.
- Neutralize nano-encapsulated poisons

- Short-duration exposure to kill signal
- While optimizing detoxification and immunity;
- Remediate nano-technology included in the injections.
- Hold Weapons Systems Companies Culpable
 - Pharmaceutical, Pfizer, Moderna, Astrazeneca
 - Telecom - 5G, ATT, Verizon, Sprint
 - Disinformation Sources
 - Arrest and prosecute responsible persons in these companies
 - Apply felony prosecution penalties to corresponding corporations for each harmed individual in Larimer County (\$15,000 per victim).

Alert public officials to the risks.

[Contact Mark Squibb](#) for triage or remediation support. Scan QR Code to make an appointment, or visit <https://liveo2.com/mark>

Death Risk to Larimer County Personnel

Since a **Victim Termination Signal** may be transmitted from standard telecommunications equipment, vaccinated occupants of all government facilities near 18 GHz radio transmission equipment may be at risk.

This includes, but is not limited to Larimer County within range of 5G towers capable of transmission of 18GHz signals:

- Sheriff Department;
- Office Personnel;
- Firefighters, Healthcare workers, and emergency responders.

5G Capable Cell Phones

Recent generation cell phones are capable of frequencies up to 40 GHz. This means any iPhone or Android app may be able to broadcast a **Victim Termination Signal**.

Any bad-actor working for Facebook, Google, Verizon or any other phone application developer can conceivably cause a cell phone to broadcast a **Victim Termination Signal** at any time.

This means 5G cell phones capable of broadcasting in the 18 GHz range should NOT BE USED BY ESSENTIAL PERSONNEL or EMERGENCY RESPONDERS.

5G Cell Towers

Modern cell towers reportedly have enough power capacity, and phased array capacity to broadcast powerful signals at a distance. High frequency cell towers can broadcast a **Victim Termination Signal** to a region affecting a target group, like a police station - thus neutralizing vaccinated PERSONNEL.

Portable Microwave Systems

Individuals can purchase high frequency generators and transmitters off the shelf. They are legal and not considered dangerous because they are used in many communication applications.

This means any party who builds a directional signal generator, sets it to 18 GHz, and points it at a building with vaccinated people will broadcast the **Victim Termination Signal**.

This means all public service organizations, government workers, health care workers, firefighters, and the military personnel, who were compelled to take the vaccines, may be in mortal danger.

The following parts are legal off-the-shelf. For under \$1000 in parts these components can be purchased and used to assemble a Victim Termination Signal Generator. These are low power components and thus would have a small broadcast area.

Modified Microwave Ovens

A microwave oven can be weaponized to 18 GHz by adjusting the dimensions of the magnetron/waveguide components. Microwaves generate signals between .3 GHz and 300 GHz. This range includes the 18 GHz Victim Termination Signal.

In simple language - a bad actor can:

- Tune a Microwave to 18 GHz (frequency);
- Point it at a target;
- Terminate vaccination radiation recipients.

1. Microwave oven

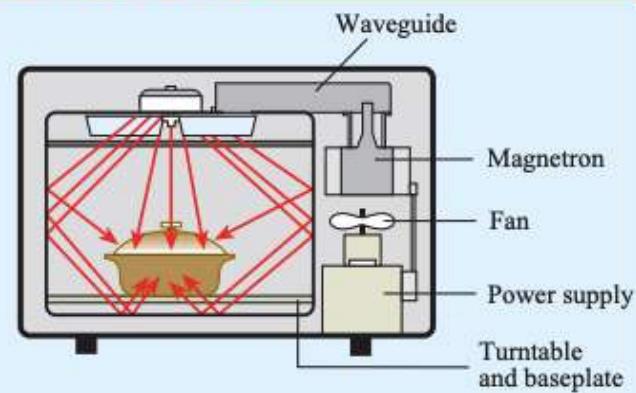

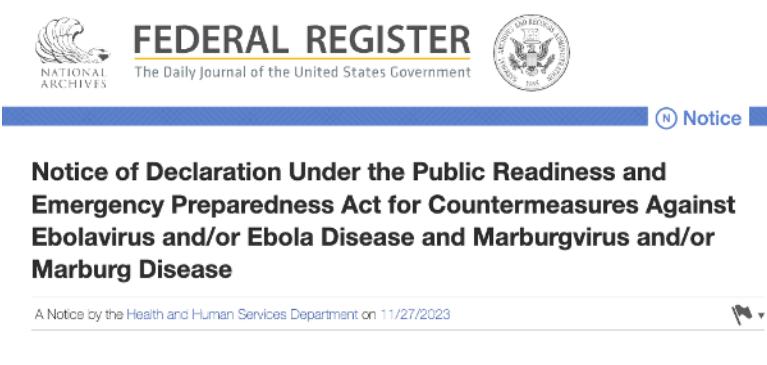

Figure 1. Schematic diagram of a typical microwave oven.

Intent & Motive Discovery

Weapon System

This is a 3 part weapon system including at least 3 integrated systems:

1. Radio Sensitizing Toxins in food and other sources
2. Lipid nanoparticle encapsulated disease agents administered by injection
3. Weaponized Electromagnetic Radiation deployed as radio-communication systems

Radio Sensitizing Toxins

Food animals were injected with mRNA technology causing them to produce magnetic materials which bioaccumulate in humans under the guise of protecting animals from COVID.

Magnets stick to people because they contain enough of these substances to convert human bodies into antennas that absorb unnatural and harmful amounts of electromagnetic radiation from 5G, EMF, causing harm, and making nano-tech responsive to signals for control, surveillance and termination.

Disease Agents Encapsulated in Lipid Nanoparticles (Injected)

Injections have been intentionally contaminated with disease agents encapsulated in lipid nanoparticles. When exposed to appropriate signals these rupture and release their payload which causes disease or death.

Weaponized Electromagnetic Radiation (5G communications)

1.0-240 GHz signals with well known harmful effects to humans, animals and insects deployed everywhere. Used to trigger, monitor and affect nanotech deployed within people.

Background and Basis

These references enable discovery of the underlying science and how official sources obfuscate easily observable evidence.

Magnetism and Normal Tissue

Normal tissue is diamagnetic and exhibits weak repulsion of magnetic fields. This is why magnetic fields are not harmful. Iron in hemoglobin while carrying oxygen is also diamagnetic. Human or animal tissue attracted to magnets is unnatural and is evidence of contamination.

| | |
|---|--|
| <p>This video illustrates how uncontaminated tissue responds to magnetic fields.</p> <p><i>Summary: uncontaminated biological tissue is diamagnetic and is weakly repelled by a magnetic field.</i></p> |  |
| <p>Official Cover Up</p> <p>Official sources discredit that human and animal tissue is (has become) magnetic since introduction of so-called vaccines.</p> <p>Google Search for Magnet Meat fails to account for universally observable evidence:</p>  | <p>Note how official sources seek to discredit meat is magnetic</p>  |

Recognizing symptoms of poisoning:

Relationship and coordinated effect of harmful technologies:

1. Victims may exhibit anomalous paramagnetic phenomenon where neodymium magnets stick to forehead, clavicle or abdomen of victims;
2. Victims may exhibit anomalous magnetic phenomenon where paramagnetic items stick to injection sites, head, clavicle or other areas of the body;
3. Victims may exhibit anomalous hypermagnetic phenomenon where non-magnetic items stick to injection sites or other areas of the body;
4. Victims with anomalous magnetic symptoms **will** experience increased absorption of electromagnetic signals from cellular broadcast devices, cell phones, wireless networks and other sources of radiation due to increased quantity of radio-absorbent materials in the body - hereinafter Electro Magnetic Field Absorption Agent Poisoning or *EMFAA Poisoning*;
5. Victims of EMFAA Poisoning blood exhibit presence of parasitic artifacts that attack and consume red blood cells and subsequently use the residue to synthesize ribbon artifacts which appear to absorb electromagnetic radiation causing localized radiation injury to blood cells indicating elevated and unnatural absorption of electromagnetic radiation by blood;
6. *Victims of EMFAA Poisoning* form anomalous vascular artifacts as rubbery sheaths inside veins and arteries that obstruct blood flow and cannot be dissolved by normal drugs which are normally discovered by embalmers or on autopsy;
7. *Victims of EMFAA Poisoning* experience cumulative hematological injury from electromagnetic radiation culminating in brain damage, heart damage, and death;
8. *Victims of EMFAA Poisoning* injected with lipid nanoparticle encapsulated **disease agents** experience **severe illness** after exposure to electromagnetic signal of specific frequency for a critical duration at sufficient amplitude to trigger rupture of lipid nanoparticle bubbles to release the previously administered disease payload into the victim's blood;
9. Department of Defense, DOD, sources disclose a release signal as three one minute bursts of 18 GHz radiation from the cellular 5G network. Amplitude in dB has not been disclosed;
10. **Disease agents** are reported to include hemorrhagic fever agents, particularly Marburg as disclosed in the Federal Register [2020-26972.pdf](#), even though no Marburg Cases were diagnosed in the USA in 2020 or even in 2023;
11. **Disease agents** are further disclosed to include **CRISPR** gene to delete 1P36 gene resulting in 1P36 deletion syndrome as severe brain damage;
12. *Victims of EMFAA Poisoning* may exhibit symptoms of remote control affecting mood, confusion, or directed cognitive function when exposed to electromagnetic radiation;
13. *Victims of EMFAA Poisoning* symptoms may also exhibit anomalous radio emissions from the head detectable by EMF detection or bluetooth signals;
14. *Victims of EMFAA Poisoning* are at risk of termination by electromagnetic signal at any time.

Victims

There are three categories of victim:

- An **assault victim** is any person who exhibits one or more forms of injury resulting from the delivery of poisons formulated, manufactured and distributed by perpetrators;
- A **murder victim** is any person who died as a consequence of exposure to any poison who lacked informed consent by ingesting or by injection as articulated in the Nuremberg Code and incorporated into statutes.
- An **extortion victim** is any person who was coerced to accept any medication as or under threat of deprivation of any right or privilege such as a condition of employment, attendance at any school, or participation in any social activity.

Victims include peace officers, firefighters, emergency medical service providers, judiciary officers, making most perpetrators subject to severe penalties. Victims include children, law enforcement and prosecution are encouraged to pursue the harshest punishment of perpetrators defined by law.

Observation of any combination of these effects constitutes evidence that one or more **perpetrators** committed one or more crimes. Some perpetrators acted with malicious intent to commit genocide.

Other committed harmful acts unknowingly, like healthcare providers that administered injections containing poison under the belief it was for the benefit of the recipient. It is important to identify those who gave injections to others but didn't take them.

A perpetrator is any person who took any intentional or unintentional action which caused a person to be a victim.

Crimes include but are not limited to:

- Manslaughter [18-3-104](#)
- Assault in the First Degree [18-3-202](#),
- Assault in the Second Degree [18-3-203](#)
- Criminal extortion - aggravated extortion [18-23-207](#)
- Murder in the first degree, [18-2-102](#)
- Reckless endangerment [18-3-208](#)
- Grand theft [18-4-401](#)
- Genocide: [18 USC 1091](#)

Federal waivers of liability for vaccines do not create immunity from any state law.

Victim Identification

- Numerous peace officers, judicial officers, public officials,
- Children and adults in Larimer County.

Perpetrator Identification

- Accomplis
- Manslaughter: Doctors, Hospitals
- Murder and Assault: Food Suppliers, Pharmaceutical Manufacturers, Medical officials, and others who knowingly participated in the crimes;
- Criminal Extortion: School Board and Public Officials who used threat or hardship to coerce others in violation of statutes that embody the Nuremberg Code.

Applicable Statutes

Any person who has died as a direct or indirect result of poisoning and subsequent exposure to electromagnetic radiation.

The crimes herein described have adversely affected persons, peace officers, firefighters, health care providers, children and adults in Larimer County. These crimes were allowed to occur because public officials have failed or in many cases refused to perform the duties. duties.

These serious crimes adversely affected residents of Larimer County due to elected and appointed officials habitually failing to perform their duties.

As remedy any elected or appointed official, with duties to enforce, prosecute the law as written must do their job.

Oath of Office

Colorado statutes require an Oath of Office. As such each official is required to swear and in most cases file a written promise to uphold the United States and Colorado Constitution.

The Colorado Laws were amended in 2018. Any person occupying an office lacking an oath of office is guilty of impersonating a public official, a class 2 misdemeanor.

It is the duty of law enforcement to remove any person who is impersonating a public official from office. Any law enforcement official who permits an impersonator becomes a co-conspirator (reference required)

Public Official Impersonators that Participate in greater crimes

When an official's misdemeanor act enables a greater crime pursuant to 18 U.S.C 96 RICO Statutes, then the public official may be deemed a co-conspirator, and thus become subject to the penalties of the greater crime. RICO statutes include murder as a serious crime.

When the actions of an impersonator enable a murder by due to failure to act, performance of a lesser crime, the impersonator is a participant in the serious crime. The nature and degree of guilt is a matter for the courts to decide.

When the impersonation public official enables murder, then the impersonator may be charged with murder if their actions led to wrongful death, provided any other co-conspirator intended to murder a victim.

Peace Officers, including the sheriff are obliged to have a valid oath of office. Any person acting as a peace officer who lacks an oath of office is guilty of a Class 6 felony pursuant to C.R.S 18-8-112.

§ 24-12-101. Form of oath or affirmation for public office - requirements for oath or affirmation

(1) When a person is required to take an oath or affirmation before the person enters upon the discharge of a public office or position, the form of the oath or affirmation is as follows:

I [name], do [select swear, affirm, or swear by the everliving God] that I will support the constitution of the United States, the constitution of the state of Colorado, and the laws of the state of Colorado, and will faithfully perform the duties of the office of [name of office or position] upon which I am about to enter to the best of my ability.

I [name], do [select swear, affirm, or swear by the everliving God] that I will support the constitution of the United States, the constitution of the state of Colorado, and the laws of the state of Colorado, and will faithfully perform the duties of the office of [name of office or position] upon which I am about to enter to the best of my ability. If choosing to swear an oath, the person swearing shall do so with an uplifted hand.

(2) The oath or affirmation must be:

- (a) In writing and signed by the person taking the oath or affirmation;
- (b) Administered as provided in section 24-12-103; and
- (c) Taken, signed, administered, and filed as specified in subsection (3) of this section before the person enters upon the public office or position.

(3) Officers of the executive department, judges of the supreme and subsidiary courts, and district attorneys shall file their oaths or affirmations of office with the secretary of state. Every other person required by law to file an oath or affirmation of office shall file with the county clerk of the county wherein the person was elected or appointed.

§ 20-1-101. Bond and oath of district attorney and staff

Universal Citation: [CO Rev Stat § 20-1-101 \(2016\)](#)

(1) *Every district attorney, before entering upon the duties of his office, shall take and subscribe an oath to support the constitution of the United States and the organic law of the state and that he will faithfully discharge the duties of his office. He shall also execute to the people of the state of Colorado a bond in the sum of five thousand dollars, with a good and sufficient individual, schedule, or blanket corporate surety bond, or other acceptable security, to be approved by the*

secretary of state, conditioned for the faithful discharge of the duties of his office, as the same are prescribed by law, and upon any breach of such bond, an action shall lie thereon for the benefit of any county fund or person injured thereby.

(2) As the district attorney may direct, the assistant and deputy district attorneys and other employees appointed pursuant to this title may be required to file with the secretary of state the bond required by law to be filed by district attorneys.

Colorado Revised Statutes Title 18. Criminal Code § 18-8-113.

Impersonating a public servant

Current as of January 01, 2022 | Updated by [FindLaw Staff](#)

(1) A person commits impersonating a public servant if he falsely pretends to be a public servant other than a peace officer and performs any act in that pretended capacity.

(2) It is no defense to a prosecution under this section that the office the actor pretended to hold did not in fact exist.

<Text of (3) effective until March 1, 2022>

(3) Impersonating a public servant is a class 3 misdemeanor.

<Text of (3) effective March 1, 2022>

(3) Impersonating a public servant is a class 2 misdemeanor.

§ 18-8-112. Impersonating a peace officer

Universal Citation: [CO Rev Stat § 18-8-112 \(2016\)](#)

(1) A person who falsely pretends to be a peace officer and performs an act in that pretended capacity commits impersonating a peace officer.

(2) Impersonating a peace officer is a class 6 felony.

Colorado Revised Statutes Title 18. Criminal Code § 18-2-201.

Conspiracy

Current as of January 01, 2022 | Updated by [FindLaw Staff](#)

- (1) A person commits conspiracy to commit a crime if, with the intent to promote or facilitate its commission, he agrees with another person or persons that they, or one or more of them, will engage in conduct which constitutes a crime or an attempt to commit a crime, or he agrees to aid the other person or persons in the planning or commission of a crime or of an attempt to commit such crime.

- (2) No person may be convicted of conspiracy to commit a crime, unless an overt act in pursuance of that conspiracy is proved to have been done by him or by a person with whom he conspired.

- (3) If a person knows that one with whom he conspires to commit a crime has conspired with another person or persons to commit the same crime, he is guilty of conspiring to commit a crime with the other person or persons, whether or not he knows their identity.

- (4) If a person conspires to commit a number of crimes, he is guilty of only one conspiracy so long as such multiple crimes are part of a single criminal episode.

- (4.5) Conspiracy to commit any crime for which a court is required to sentence a defendant for a crime of violence in accordance with [section 18-1.3-406](#) is itself a crime of violence for the purposes of that section.

<Text of (5) effective until March 1, 2022>

(5) If a person conspires to commit a felony which is defined by any statute other than one contained in this title and for which conspiracy no penalty is specifically provided, he is guilty of a class 6 felony. If a person conspires to commit a misdemeanor which is defined by any statute other than one contained in this title and for which conspiracy no penalty is specifically provided, he is guilty of a class 3 misdemeanor.

<Text of (5) effective March 1, 2022>

(5) If a person conspires to commit a felony which is defined by any statute other than one contained in this title and for which conspiracy no penalty is specifically provided, the person commits a class 6 felony. If a person conspires to commit a misdemeanor which is defined by any statute other than one contained in this title and for which conspiracy no penalty is specifically provided, the person commits a class 2 misdemeanor.

§ 18-1-603. Complicity

Universal Citation: [CO Rev Stat § 18-1-603 \(2016\)](#)

A person is legally accountable as principal for the behavior of another constituting a criminal offense if, with the intent to promote or facilitate the commission of the offense, he or she aids, abets, advises, or encourages the other person in planning or committing the offense.

Murder in the first degree, 18-2-102

(1) *A person commits the crime of murder in the first degree if:*

(a) After deliberation and with the intent to cause the death of a person other than himself, he causes the death of that person or of another person; or

(b) Acting either alone or with one or more persons, he or she commits or attempts to commit arson, robbery, burglary, kidnapping, sexual assault as prohibited by section 18-3-402, sexual assault in the first or second degree as prohibited by section 18-3-402 or 18-3-403 as those sections existed prior to July 1, 2000, or a class 3 felony for sexual

assault on a child as provided in section 18-3-405 (2), or the crime of escape as provided in section 18-8-208, and, in the course of or in furtherance of the crime that he or she is committing or attempting to commit, or of immediate flight therefrom, the death of a person, other than one of the participants, is caused by anyone; or

(c) By perjury or subornation of perjury he procures the conviction and execution of any innocent person; or

(d) Under circumstances evidencing an attitude of universal malice manifesting extreme indifference to the value of human life generally, he knowingly engages in conduct which creates a grave risk of death to a person, or persons, other than himself, and thereby causes the death of another; or

(e) He or she commits unlawful distribution, dispensation, or sale of a controlled substance to a person under the age of eighteen years on school grounds as provided in section 18-18-407 (2), and the death of such person is caused by the use of such controlled substance; or

(f) The person knowingly causes the death of a child who has not yet attained twelve years of age and the person committing the offense is one in a position of trust with respect to the victim.

Victim Identification:

- Any person who dies subsequent to exposure to 3 one minute pulses of electromagnetic radiation at 18 GHz.
- Any person who has died as a direct or indirect result of poisoning and subsequent exposure to electromagnetic radiation.
- Any person who dies as a result of myocarditis, stroke, or vascular occlusion, which upon autopsy shows existence of unnatural rubbery artifacts in the vascular system

Assault in the First Degree 18-3-202, second degree 18-3-203,

(1) A person commits the crime of assault in the first degree if:

(a) With intent to cause serious bodily injury to another person, he causes serious bodily injury to any person by means of a deadly weapon; or

(b) With intent to disfigure another person seriously and permanently, or to destroy, amputate, or disable permanently a member or organ of his body, he causes such an injury to any person; or

(c) Under circumstances manifesting extreme indifference to the value of human life, he knowingly engages in conduct which creates a grave risk of death to another person, and thereby causes serious bodily injury to any person; or

(d) Repealed.

(e) With intent to cause serious bodily injury upon the person of a peace officer, firefighter, or emergency medical service provider, he or she threatens with a deadly weapon a peace officer, firefighter, or emergency medical service provider engaged in the performance of his or her duties, and the offender knows or reasonably should know that the victim is a peace officer, firefighter, or emergency medical service provider acting in the performance of his or her duties; or

(e.5) With intent to cause serious bodily injury upon the person of a judge of a court of competent jurisdiction or an officer of said court, he threatens with a deadly weapon a judge of a court of competent jurisdiction or an officer of said court, and the offender knows or reasonably should know that the victim is a judge of a court of competent jurisdiction or an officer of said court;

Victim Identification:

- Any person who becomes physically or mentally impaired subsequent to exposure to any vaccine;
- Any vaccinated person who develops Marburg, Dengue or Ebola like symptoms subsequent to exposure to 3 one minute pulses of electromagnetic radiation at 18 GHz;
- Any person who develops any cardiovascular injury or loss of function resulting from formation of rubber-like artifacts in the vascular system.

Manslaughter 18-3-104

1. A person commits the crime of manslaughter if:
 1. Such person recklessly causes the death of another person; or
 2. Such person intentionally causes or aids another person to commit suicide.
 3. (Deleted by amendment, L. 96, p. 1844 , § 13, effective July 1, 1996.)
2. Manslaughter is a class 4 felony.
3. This section shall not apply to a person, including a proxy decision-maker as such person is described in section 15-18.5-103, C.R.S., who complies with any advance medical directive in accordance with the provisions of title 15, C.R.S., including a medical durable power of attorney, a living will, or a cardiopulmonary resuscitation (CPR) directive.
 1. This section shall not apply to a medical caregiver with prescriptive authority or authority to administer medication who prescribes or administers medication for palliative care to a terminally ill patient with the consent of the terminally ill patient or his or her agent.
 2. For purposes of this subsection (4):
 1. "Agent" means a person appointed to represent the interests of the terminally ill patient by a medical power of attorney, power of attorney, health-care proxy, or any other similar statutory or regular procedure used for designation of such person.
 2. "Medical caregiver" means a physician, registered nurse, nurse practitioner, physician assistant, or anesthesiologist assistant licensed by this state.
 3. "Palliative care" means medical care and treatment provided by a licensed medical caregiver to a patient with an advanced chronic or terminal illness whose condition may not be responsive to curative

treatment and who is, therefore, receiving treatment that relieves pain and suffering and supports the best possible quality of his or her life.

3. Paragraph (a) of this subsection (4) shall not be interpreted to permit a medical caregiver to assist in the suicide of the patient.

Criminal extortion - aggravated extortion [18-23-207](#)

(1) A person commits criminal extortion if:

- (a) The person, without legal authority and with the intent to induce another person against that other person's will to perform an act or to refrain from performing a lawful act, makes a substantial threat to confine or restrain, cause economic hardship or bodily injury to, or damage the property or reputation of, the threatened person or another person; and
- (b) The person threatens to cause the results described in paragraph (a) of this subsection (1) by:
 - (I) Performing or causing an unlawful act to be performed; or
 - (II) Invoking action by a third party, including but not limited to, the state or any of its political subdivisions, whose interests are not substantially related to the interests pursued by the person making the threat.

(1.5) A person commits criminal extortion if the person, with the intent to induce another person against that other person's will to give the person money or another item of value, threatens to report to law enforcement officials the immigration status of the threatened person or another person.

(2) A person commits aggravated criminal extortion if, in addition to the acts described in subsection (1) of this section, the person threatens to cause the results described in paragraph (a) of subsection (1) of this section by means of chemical, biological, or harmful radioactive agents, weapons, or poison.

(3) For the purposes of this section, "substantial threat" means a threat that is reasonably likely to induce a belief that the threat will be carried out and is one that threatens that significant confinement, restraint, injury, or damage will occur.

(4) Criminal extortion, as described in subsections (1) and (1.5) of this section, is a class 4 felony. Aggravated criminal extortion, as described in subsection (2) of this section, is a class 3 felony.

Victim Identification:

- Any person who took a vaccine as a condition of employment;
- Any person coerced to take a vaccine as a condition to attend an educational institution;

- If the person who took the a vaccine was injured the person who coerced them may be guilty of assault;
- If the person who took a vaccine died, then the person who coerced them may be guilty of manslaughter, homicide or murder.

Reckless endangerment 18-3-208

A person who recklessly engages in conduct which creates a substantial risk of serious bodily injury to another person commits reckless endangerment, which is a class 3 misdemeanor.

The Nuremberg Code - Informed Consent

The statute for Criminal Extortion embodies the Nuremberg Code requirements for informed consent. Any person who coerced another person(s) under threat of economic hardship, accepting an injection as a condition of employment, to accept any injection against their will are guilty of [Criminal Extortion pursuant to 18-3-207](#), a class 4 felony. This statute embodies the universal prohibitions by the threat of economic hardship to subvert informed consent as set forth in the Nuremberg Code:

- a. The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.
- b. The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment. It is a personal duty and responsibility which may not be delegated to another with impunity.

§ 18-1-607. Criminal liability of an individual for corporate conduct

Universal Citation: [CO Rev Stat § 18-1-607 \(2016\)](#)

A person is criminally liable for conduct constituting an offense which he performs or causes to occur in the name of or in behalf of a corporation to the same extent as if that conduct were performed or caused by him in his own name or behalf.

§ 18-1-606. Criminal liability of business entities

Universal Citation: [CO Rev Stat § 18-1-606 \(2016\)](#)

(1) A business entity is guilty of an offense if:

- (a) The conduct constituting the offense consists of an omission to discharge a specific duty of affirmative performance imposed on the business entity by law; or
- (b) The conduct constituting the offense is engaged in, authorized, solicited, requested, commanded, or knowingly tolerated by the governing body or individual authorized to manage the affairs of the business entity or by a high managerial agent acting within the scope of his or her employment or in behalf of the business entity.

(2) As used in this section:

(a) "Agent" means any director, officer, or employee of a business entity, or any other person who is authorized to act in behalf of the business entity, and "high managerial agent" means an officer of a business entity or any other agent in a position of comparable authority with respect to the formulation of the business entity's policy or the supervision in a managerial capacity of subordinate employees.

(b) "Business entity" means a corporation or other entity that is subject to the provisions of title 7, C.R.S.; foreign corporations qualified to do business in this state pursuant to article 115 of title 7, C.R.S., specifically including federally chartered or authorized financial institutions; a corporation or other entity that is subject to the provisions of title 11, C.R.S.; or a sole proprietorship or other association or group of individuals doing business in the state.

(3) Every offense committed by a corporation prior to July 1, 1985, which would be a felony if committed by an individual shall subject the corporation to the payment of a fine of not less than one thousand dollars nor more than fifteen thousand dollars. For such offenses committed on or after July 1, 1985, the corporation shall be subject to the payment of a fine within the presumptive ranges authorized by section 18-1.3-401 (1) (a) (III). Every offense committed by a corporation which would be a misdemeanor or petty

offense if committed by an individual shall subject the corporation to the payment of a fine within the minimum and maximum fines authorized by sections 18-1.3-501 and 18-1.3-503 for the particular offense of which the corporation is convicted. For an offense committed on or after July 1, 2003, a business entity shall be subject to the payment of a fine within the presumptive ranges authorized by section 18-1.3-401 (1) (a) (III). An offense committed by a business entity that would be a misdemeanor or petty offense if committed by an individual shall subject the business entity to the payment of a fine within the minimum and maximum fines authorized by sections 18-1.3-501 and 18-1.3-503 for the particular offense of which the business entity is convicted.

18 USC 1091 Genocide:

(a) BASIC OFFENSE.—Whoever, whether in time of peace or in time of war and with the specific intent to destroy, in whole or in **substantial part**, a national, ethnic, racial, or **religious group** as such—

- (1)**kills **members** of that group;
- (2)**causes serious bodily injury to **members** of that group;
- (3)**causes the permanent impairment of the mental faculties of **members** of the group through drugs, torture, or similar techniques;
- (4)**subjects the group to conditions of life that are intended to cause the physical destruction of the group in whole or in part;
- (5)**imposes measures intended to prevent births within the group; or
- (6)**transfers by force **children** of the group to another group;

shall be punished as provided in subsection (b).

(b) PUNISHMENT FOR BASIC OFFENSE.—The punishment for an offense under subsection (a) is—

- (1)**in the case of an offense under subsection (a)(1), where death results, by death or imprisonment for life and a fine of not more than \$1,000,000, or both; and
- (2)**a fine of not more than \$1,000,000 or imprisonment for not more than twenty years, or both, in any other case.

(c) INCITEMENT OFFENSE.—

Whoever directly and publicly **incites** another to violate subsection (a) shall be fined not more than \$500,000 or imprisoned not more than five years, or both.

(d) ATTEMPT AND CONSPIRACY.—

Any person who attempts or conspires to commit an offense under this section shall be punished in the same manner as a person who completes the offense.

(e) JURISDICTION.—There is jurisdiction over the offenses described in subsections (a), (c), and (d) if—

(1) the offense is committed in whole or in part within the United States; or

(2) regardless of where the offense is committed, the alleged offender is—

(A) a national of the United States (as that term is defined in section 101 of the [Immigration and Nationality Act \(8 U.S.C. 1101\)](#));

(B) an alien lawfully admitted for permanent residence in the United States (as that term is defined in section 101 of the [Immigration and Nationality Act \(8 U.S.C. 1101\)](#));

(C) a stateless person whose habitual residence is in the United States; or

(D) present in the United States.

(f) NONAPPLICABILITY OF CERTAIN LIMITATIONS.—

Notwithstanding section 3282, in the case of an offense under this section, an indictment may be found, or information instituted, at any time without limitation.

Perpetrators:

There are multiple perpetrators in the crime that committed various crimes. The crimes appear to include:

Criminal Extortion pursuant to 18-3-207

A perpetrator

A suspect in this matter is any person who:

2. Observation of any combination of these effects constitutes evidence that **parties unknown** have acted with malicious intent to cause injury and cause death or permanent disability to peace officers, firefighters, emergency medical service providers, judiciary officers, and the general public and thus have committed crimes of first degree assault and in the cases of death, [murder in the first degree](#);
3. Observation of any of these effects in any combination constitutes evidence that other **parties unknown** have participated in assault or murder lacking intent. These parties unknown have committed [manslaughter](#) or [Reckless Endangerment](#).
4. Other **parties unknown** who coerced other person(s) under threat of economic hardship, accepting an injection as a condition of employment, to accept any injection against their will are guilty of [Criminal Extortion pursuant to 18-3-207](#), a class 4 felony. This statute embodies the universal prohibitions by the threat of economic hardship to subvert informed consent as set forth in the Nuremberg Code:

5. Parties unknown will have intentionally committed one or more the following acts:
 - a. Formulation of disease agents;
 - b. Manufacture carriers of disease agents;
 - c. Distribution of disease agents;
 - d. Administration of disease agents.

Apparent Sources of Agents

Consumption Contaminated Meats

Injectable Medications and Vaccines

Inhalation from Aerosol deployment and accumulation in water sources

Confirm magnetic evidence in food

Magnets are off-the-shelf neodymium N-42 or N-50 magnets.

Test samples for:

- Chicken
- Beef
- Pork

Non-organic low-cost brands are more likely to exhibit anomalous magnetism.

Suggest testing meats at the following stores:

| | |
|--|---|
| Walmart Supercenter Magnetic Meats pulled from shelves. Only "organic and natural" products remain. | 1250 E Magnolia St, 80524, Fort Collins http://www.walmart.com/store/2729 (970) 493-9245 |
| King Soopers Magnetic Meats pulled from shelves. Only "organic and natural" products remain. | 1842 N College Ave, Fort Collins https://www.starbucks.com/store-locator/store/20385/king-soopers-fort-collins-99-1842-n-college-ave-fort-collins-co-805241333-us 970-494-6940 |
| Since this publication Walmart and King Soopers stores (above) have pulled magnetic meats from the shelves. A survey of both stores on Jan 8, 2024 did not locate any magnetic samples, likely due to earlier demonstration to butcher and management that they were selling contaminated food products to the public. All conventionally raised meats have been removed from the shelves. Only "organic" and "natural" labeled meats are available. |  Article published on liveo2.com 9-11-23. |

This is likely due to my illustrating magnetism to the management and publication of magnetic meats

Confirm Magnetic evidence in people

Private testing has shown that nearly everyone is affected by magnetizing toxins.

Test yourself, family members, firefighters, and others determine if they have become sensitized to magnetic fields.

This human survey uses the same magnet as the meat survey.

This guide enables consistent testing of individuals. The guide proves body locations where magnetism normally occurs:

- forehead,
- clavicle,
- elbow
- back of neck.
